**Beaches Of
Jervis Bay**
(Hyams
Publishing,
\$29.95)

THIS asserts itself as “a concise visual travel guide” to the beaches on the NSW South Coast. As one of a series of South Coast guides by the same publisher, it covers Jervis Bay, Kiama and Shoalhaven. Each beach is accompanied by a simple map, a symbol key, a summary of the location and several inviting photographs. It also has street maps of the main towns, but it lacks the really useful elements of travel guides – amenities, accommodation, things to do and see – and the inflated text could do with more sub-editing. For lovers of this beautiful region, however, it will serve as an attractive reference. **Marc McEvoy**
